

Healthier

Lead research to improve the health outcomes of the people of Northwestern Ontario and beyond.

Goal 1

Develop a research model that engages patients and families at all stages.

SUCCESS CRITERIA

Patient centred research

Goal 2

Partner with Indigenous communities and Indigenous researchers to develop research that is relevant to their health priorities.

SUCCESS CRITERIA

Relevant research for Indigenous people

Goal 3

Build local clinical research.

SUCCESS CRITERIA

Patient access to clinical research

Goal 4

Develop screening and diagnostic tools that are responsive to our geographic challenges.

SUCCESS CRITERIA

First Nations community and region access to screening and diagnostics

Goal 5

Foster adoption of strategic health-related technology.

SUCCESS CRITERIA

Strategic technology

Wealthier

Advance philanthropic support and generate revenue through science and partnerships.

Goal 1

Engage stakeholders in philanthropy to support research.

SUCCESS CRITERIA

Donations support research

Goal 2

Commercialize our medical imaging research products.

SUCCESS CRITERIA

Spin-off companies and/or licensing agreements realized

Goal 3

Enhance our partnerships to leverage research resources.

SUCCESS CRITERIA

Partnerships grow research resources

Goal 4

Develop a robust clinical research program.

SUCCESS CRITERIA

Clinical research growth

Goal 5

Implement a sustainable business model for the cyclotron.

SUCCESS CRITERIA

Cyclotron program self-sustained

Smarter

Enhance the academic environment.

Goal 1

Participate in development of academic programs relevant to our health and research priorities.

SUCCESS CRITERIA

Relevant research academic programming

Goal 2

Participate in the development of the academic framework with the Hospital.

SUCCESS CRITERIA

Research integration

Goal 3

Attract and engage researchers to build a cluster of academics.

SUCCESS CRITERIA

Collaborative research environment

Goal 4

Grow strategic partnerships and networks to expand capacity and impact.

SUCCESS CRITERIA

Robust, far-reaching research networks
