The Thunder Bay Regional Health Research Institute (TBRHRI) - an independent, not-for-profit corporation - is the research arm of the Thunder Bay Regional Health Sciences Centre. Our Scientists work closely with physicians and other clinicians, as well as academic and industry partners, to enhance research to improve the health outcomes of the people of Northwestern Ontario and beyond. Research is advanced through discovery and development of new imaging and other technologies, clinical trials and understanding of Indigenous Health and other pertinent matters.

In conjunction with the Northern Ontario Heritage Fund Corporation, we are currently seeking candidates for the following position:

### **8503304 - Research Assistant Internship (1 Year Contract)**

The individual filling this position works closely with the TBRHRI Scientists and their time is devoted to the support and enabling of research. Specifically, the Intern will work with one of Dr. Ingeborg Zehbe's group's research projects which deals with advanced mammalian cell culture and all aspects of molecular biology and virology. This project requires an individual who can adapt to a fast pace pre-clinical research wet lab. The successful candidate will design, execute and trouble shoot experiments together with the supervisor and will be provided with all necessary training by the appropriate lab members. She/he will also supervise students, assist in writing scientific papers for publication in international, peer-reviewed journals and assist with grant writing. Ongoing projects are listed at [/zehbelab.weebly.com/](http://zehbelab.weebly.com/).

The ideal candidate is highly motivated and organized, with the ability to multi task in a fast-paced, interdisciplinary research environment. Exceptional organizational and communication skills, along with strong quantitative, analytic and reasoning skills are necessary. A strong work ethic and positive attitude are key. A BSc in biological sciences and biochemistry or related discipline is required. Bioinformatics skills would be considered an asset. NOHFC Interns must be a university or college graduate who has graduated within the last three years from an accredited college or university. The candidate must be a graduate of a post-secondary degree or diploma program. The position will be a first full-time employment in the candidate's field of study.
