The Thunder Bay Regional Health Research Institute (TBRHRI) - an independent, not-for-profit corporation - is the research arm of the Thunder Bay Regional Health Sciences Centre. Our scientists work closely with clinicians, medical professionals, and academic and industry partners to improve health care through excellence in patient-centered research. Research is advanced through discovery and development of new imaging-based technologies that are brought to patients through clinical trials. With successful trial validation, discoveries proceed to commercialization for the benefit of patients everywhere.

We are currently seeking candidates for the following position:

Ortho Research Assistant (1 Year Contract)

The individual will work closely with the TBRHRI Clinical Research Services Department (CRSD) and the orthopedic group of physician investigators at the Thunder Bay Regional Health Sciences Centre (TBRHSC). Their time will be devoted to the support and development of clinical research projects within the orthopedic research platform. The individual will provide assistance with planning, coordination, implementation, and analysis of projects in accordance with the regulations for clinical research at TBRHSC/TBRHRI.

The ideal candidate is highly dedicated and organized, with the ability to multitask in a fast-paced, diverse, and growing environment. Exceptional organizational and communication skills, along with strong quantitative, analytic and reasoning skills are necessary. Preferably a post secondary or post graduate degree in a related field, with excellent writing technique, project management, and research skills. An individual is sought who can take initiative and who is interested in working in an interdisciplinary research environment.

To be considered for this position, please send your resume with a cover letter to:

Tanya Niederer, HR Coordinator
Thunder Bay Regional Health Research Institute
